Photographed models were stitched by:
Deanna Baldus, Janet Kazmer,
Maxine Meadows, Carrie Snider,
Kathy Tregembo, and Connie Wright.

Introduction

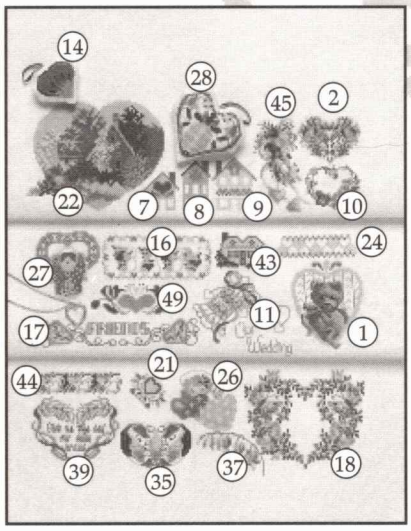
The Heart — A symbol of love and caring.

Whether you're looking for a design to stitch for a baby that's the light of your life or simply want to let a neighbor or relative know you care, you'll find a heart appropriate for the occasion.

This is the kind of book that is kept handy for stitching special gifts in a hurry. Many of these hearts can be stitched in just an evening or two.

Thank you, Sam Hawkins, for another heart-warming collection of cross stitch designs!

Front Cover



The design charts are in numerical order beginning on page 2.

Back Cover

We have made every effort to ensure the accuracy and completeness of these instructions.

General Directions

CHARTED DESIGNS

This collection of 50 delightful heart designs can be cross stitched on any evenweave fabric (described below). The stitch width and height are given with each chart, and centers are shown by arrows along the left side and top. Each square on a chart corresponds to the fabric threads over which a cross stitch can be made. The symbol in a square specifies the color to be used for that stitch as noted in the Color Key.

If a color name is given without a symbol, the color is used for one of the following decorative stitches. Backstitches are shown by straight lines, French Knots by dots, and Lazy Daisies by their shape.

FABRIC

Evenweave fabrics and pre-finished accessories are used for counted cross stitch. The term "evenweave" means that the fabric has the same number of threads (or square blocks of threads) per inch, horizontally and vertically. That number is called its thread count. The stitched size of a design depends not only on the number of stitches required, but on the thread count of the chosen fabric. Use the chart below as a guide to determine the finished height and width of a design on three counts of fabric.

	Number of Stitches in Design				
Thread Count	10	20	30	40	50
14 per inch	3/4"	1-3/8"	2-1/8"	2-7/8"	3-5/8"
16 per inch	5/8"	1-1/4"	1-7/8"	2-1/2"	3-1/8"
18 per inch	1/2"	1-1/8"	1-5/8"	2-1/4"	2-3/4"
	(measurements are given to the nearest 1/8")				

EMBROIDERY FLOSS, NEEDLES, HOOPS

The Anchor, J. & P. Coats, and DMC embroidery floss colors are specified by number in the Color Keys. Each company has its own color range, so these suggestions are not perfect color matches, but are appropriate substitutions. Generic color names are given for each floss color in a design; for example, if there is only one green it will be so named, but if there are three greens, they will be labelled lt (light), med (medium), and dk (dark).

Cut floss into comfortable working lengths—we suggest about 18". Two strands of floss are usually used to cross stitch on a 14-count background, which is the most popular size evenweave Aida cloth. The background will be adequately covered by the stitches, yet the delicacy of the pattern is retained. For a more solid effect, use two strands of floss on 16-count Aida as shown on our cover stitching, and your stitches will completely cover the fabric squares to produce a more strongly colored design. One strand of floss is usually sufficient to cross stitch on 18-count fabric.

Size 24 or 26 blunt-pointed tapestry needles are suitable for these fabrics. Use a hoop or not, as you prefer. If you do, choose a small, clean plastic or wood hoop with a screw-type tension adjuster.

GETTING STARTED

To begin in an unstitched area, bring threaded needle to front of fabric. Hold an inch of the end against the back, then anchor it with your first few stitches. To end threads and begin new ones next to existing stitches, weave through the backs of several stitches.

THE STITCHES

Note: Use two strands of floss for all Cross Stitches, French Knots, and Lazy Daisies, and one strand for Backstitches unless otherwise noted in the Color Key.

Cross Stitch

The cross stitch is formed in two motions. Follow the numbering in **Fig 1** and bring needle up at 1, down at 2, up at 3, down at 4, to complete the stitch. Work horizontal rows of stitches, **Fig 2**, wherever possible. Bring thread up at 1, work half of each stitch across the row, then complete the stitches on your return.

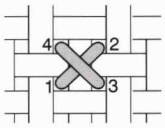

Fig 1

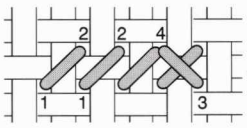

Fig 2

Backstitch

Backstitches are worked after cross stitches have been completed. They may slope in any direction and are occasionally worked over more than one square of fabric. **Fig 3** shows the progression of several stitches; bring thread up at odd numbers and down at even numbers.

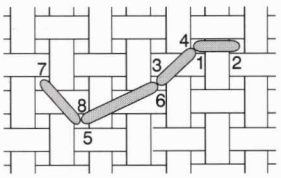

Fig 3

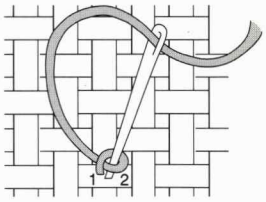

Fig 4

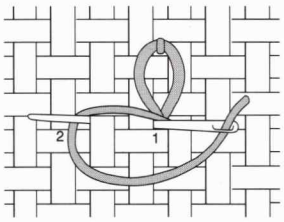
French Knot

Bring thread up where indicated on chart. Wrap floss once around needle, **Fig 4**, and reinsert needle at 2, close to 1, but at least one fabric thread away from it. Hold wrapping thread tightly and pull needle through, letting thread go just as knot is formed. For a larger knot, use more strands of floss, but wrap only once.

Fig 5



Lazy Daisy Stitch

Bring thread up at center hole (1), **Fig 5**. Loop floss, insert needle in same hole, and bring it out two squares from center (2) as indicated on chart, with loop beneath point of needle. Pull needle through, adjusting size and shape of loop. Stitch down over loop, one thread farther from center, to secure it. Repeat for each oval shape.

FINISHING

Wash stitched fabric in cool water with a gentle soap. Rinse well. Roll in a towel and squeeze out excess moisture. Place face down on a dry towel or padded surface and iron carefully. Frame or finish as desired.
